Evaluation

    I.   **Summary of Course Evaluation**

          Total number of answers: 1

          Short summary of the result: Given that there was only one response, not much can be drawn from it. This student was however very satisfied with the course, giving a 4 or 5 on almost all questions, even on the ones regarding the online learning. The student requested more time to prepare the presentation and lecture.
          This course was moved online on short notice, due to the COVID-19 epidemic. Lectures and meetings were online.

    II.   **Evaluation of changes since last time the course was given**

          Given the situation of moving the course online on short notice, I am very happy with the outcome.

    III.   **Proposed changes to the next time the course is given**
          We will give the students more time to prepare their lecture and presentation.
