Kurssammanställning NUMN30 "Iterativ lösning av storskaliga system i beräkningsteknik" vt 2020

Course responsible: Philipp Birken
Other teachers: -

Number of students: 4 registered students on NUMN30, 6 on FMNN30

Grades: 0 UK, 2 G, 1 VG (5 completed on FMNN30).

Evaluation

    I.   **Summary of Course Evaluation**

    Total number of answers: 1

    Short summary of the result: Given that there was only one response, not much can be drawn from it. This student was however extremely satisfied with the course, giving a 5 on almost all questions, even on the ones regarding the online learning. This course was moved online on short notice, due to the COVID-19 epidemic. Lectures and orals were online. At the beginning, students were asked to provide a superbrief presentation of themselves to the other students, to improve the overall atmosphere.

    II.   **Evaluation of changes since last time the course was given**

    Given the situation of moving the course online on short notice, I am very happy with the outcome.

    III.   **Proposed changes to the next time the course is given**

    We will try to obtain videos this time that can be used in future courses. The next time the course will be given, the pandemic will be over, however, leading to a change in teaching style again.
